

As of summer 2008, the Toronto salon scene is changing. gogreensalon.com will be assisting participating salons and spas in the GTA and across Canada to join the green movement. Recycling programs, eco friendly products, and online initiatives are just the beginning. So the next time you are searching for salon or spa services, look no further than gogreensalon.com. We will help you find a salon or spa in your neighbourhood and price range that cares about you, your community, and your green intentions.

Look for the gogreensalon.com logo at your favourite salon or spa.
